- SCC from Gayatri high school -2013, Telangana

Software Skills:

Frontend :- Html, CSS, JavaScript, bootstrap, reactjs
Backend :- python, nodejs, expressjs
Database :- SQL

Project Profile:

Project# 1 (dotweb-googleauthentication.vercel.app)

Responsive Website:

The website offers a responsive and user-friendly interface, and ensuring optimal performance and visual appeal across various devices, including desktops, tablets, and mobiles.

1. Google Authentication: Users can securely sign in using their Google accounts, implementing the Google Authentication API to validate user credentials.
2. Authorization and Secure Login: The website enforces proper user authorization to access different parts of the application based on roles (e.g., users, administrators, etc.). This ensures that only authorized users can perform specific actions and access relevant features.
3. Remember Me Functionality: Users have the option to stay logged in for a prolonged period with the "Remember Me" functionality. A custom cookie handling logic manages the process, enabling automatic login for returning users for up to 30 days.
4. Custom Cookie Handling: The project includes custom logic to handle cookie retrieval, deletion, and secure storage of authentication tokens, ensuring data integrity and enhancing user security.
5. reCAPTCHA Integration: To prevent spam and enhance security during user registration and login, the website integrates reCAPTCHA, an advanced security feature provided by Google.
6. React Router for Client-Side Routing: The use of React Router facilitates seamless client-side routing, ensuring smooth navigation between pages and delivering an uninterrupted user experience.

Project# 2 (shoppingzone.vercel.app)

The website appears to be an online shopping platform that aims to provide customers with a diverse range of products while ensuring a user-friendly and convenient shopping experience. With its easy navigation and attractive design, the website aims to engage users and encourage them to explore and shop for their favorite products.

1. shoppingzone is an online shopping website that offers a variety of products to customers. The website provides a user-friendly interface to explore and purchase various items from different categories.
2. The website has a responsive navigation bar at the top, allowing users to easily access different sections of the website. It includes options like "Home," "View Courses," "Log In," and "Sign Up."

3. The banner section features a captivating heading, "Get your product at Anytime at Anywhere," inviting users to explore the products available on the platform. A "View Menu" button encourages visitors to check out the offerings.
4. The "Why Choose Us?" section highlights the website's key advantages, such as delivering quality products with quick delivery based on distance. It presents three main points: "Return Service," "Exchange," and "Best Offers."
5. Explore Menu Section section showcases a range of product categories available on the website. Users can explore various categories, such as "Electronic items," "Groceries," "Clothes," "Footwear," "Beauty," "Accessories," "Home & Kitchen," and "Jewelleries."
6. The "Delivery & Payment" section emphasizes hassle-free payment options and offers live tracking of deliveries. Customers are encouraged to pay online, as it provides a 5% discount on every order.
7. The "Follow Us" section encourages users to connect with the website on various social media platforms, including Twitter, Instagram, and Facebook.
8. The footer section includes the website's contact email, and the physical address. Additionally, it provides a phone icon with a contact number for customer inquiries.
